Ambient awareness

Ana Levordashka – Ruoyun Lin – Sonja Utz

Redefining tie strength – how social media (can) help us get non-redundant useful information and emotional support

AMBIENT AWARENESS

AMBIENT AWARENESS

very much like being physically near someone and picking up on his mood through the little things he does — body language, sighs, stray comments — out of the corner of your eye

AMBIENT AWARENESS

fragments of information
can develop peripherally

microblogging updates
digital footprints, etc.
